

# HOLIDAY SCAVENGER HUNT GAME

## Addition to 20

										
										
										
										
										
										
										
										
										
										
										

### How to play

The players take a scavenger card each. They take turns rolling a face-10 dice twice (or 2 dice once) or picking 2 cards from a playing cards or UNO cards pile. (only numbers 1-10). They add the numbers and find the sum on the table. They mark the picture that hides behind the sum on their scavenger card. The first player to mark all the pictures on their scavenger card is the winner.

Since the sums repeat on the table they can choose any same number that helps them get the picture they need to fill their card. If at a turn they cannot find the sum that gives them the picture they need they just wait for their next turn.
